

Organize

The Second

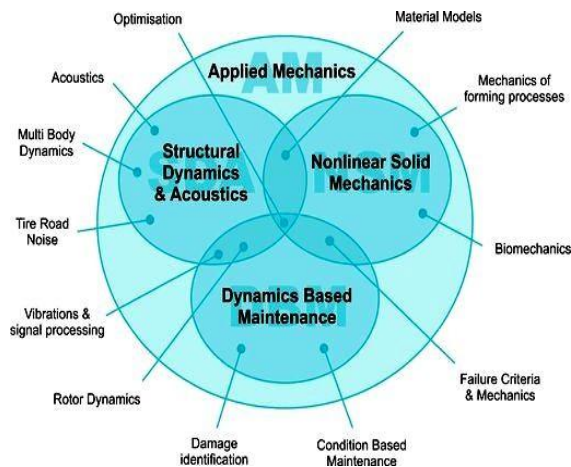

Students Symposium on Engineering Application of Mechanics

SSE NAM '2

Chlef, December 13-14, 2017

Call for Papers

Second Announcement

Supported by

University Mustapha Stambouli,
Mascara, Algeria

University Hassiba Benbouali Chlef,
Algeria

University Houari Boumediene for
Sciences and Technology, Algiers, Algeria

University Tahri Mohamed, Bechar

Organized by

Laboratory for Theoretical Physics and Materials Physics, LTPM, University Hassiba Benbouali of Chlef, Algeria

Laboratory of Control, testing, Measurement and Simulation in Mechanics. University Hassiba Benbouali of Chlef, Algeria

Laboratory for Rheology and Mechanics, LRM, University Hassiba Benbouali of Chlef, Algeria

Laboratory for Mechanics & Energetic, LME, University Hassiba Benbouali of Chlef, Algeria

Laboratory of Quantum Material Physics and Mathematical Modeling University Mustapha Stambouli of Mascara, Algeria.

Laboratory for Advanced Mechanics, LMA, University Sciences and Technology Houari Boumediene, Algiers, Algeria.

Laboratory of Mechanics : Simulation & Experimentation, LZME, University of Tahri Mohamed of Bechar, Algeria.

Objectives of SSE NAM'2

The objective of the Second Students Symposium on Engineering Application of Mechanics, "SSE NAM'2" will be focus on the "Engineering and Applied Fracture Mechanics and Environment" and destined directly on the PhD student evolution. The SSE NAM'2 will be held in the Campus of Hassiba Benbouali university of Chlef, on the 13, 14 December 2017 with the collaboration of the Mustapha Stambouli University of Mascara and Houari Boumediene, University of Sciences and Technology in Algiers and University of Tahri Mohamed of Bechar. Co-organized by the Laboratory for Theoretical Physics and Materials Physics, the Laboratory of Control,

testing, Measurement and Simulation in Mechanics, the Laboratory for Rheology and Mechanics, LRM, from the Hassiba Benbouali University of Chlef, Laboratory for Mechanics & Energetic, LME, The Laboratory of Quantum Material Physics and Mathematical Modeling In Mascara University, The laboratory for Advanced Mechanics, LMA from University Sciences and Technology Houari Boumediene, Algiers, Algeria and the Laboratory of Mechanics: Simulation & Experimentation, LZME, of University of Tahri Mohamed of Bechar, Algeria.

The aims of the first Symposium will be to discuss the present status of the Applied mechanics based constitutive simulation, Rheology and modeling of materials and associated experimental observations methods. It's also an opportunity for scientists and engineers from Algerians Master, Phd Students from the three universities to discuss research activities that could be a basis for future collaborations. Nature & Technology will be the supporting journal of the Symposium where all reviewed and accepted conference papers will be published in special issue "Engineering Applied Fracture Mechanics and Environment".

Organizing & Scientific Committee

Hadj Meliani Mohammed	Univ Hassiba benbouali of Chlef, Algeria
Aid Abdelkrim	Univ Mustapha Stambouli, Mascara, Algeria
Khelil Ali	Univ Hassiba benbouali of Chlef, Algeria
Hammadi Fodil	Univ Tahri Mohamed of Bechar, Algeria
Boukharouba Taoufik	Univ Science and Technology, Algiers, Algeria
Hamou Zahloul	Univ Hassiba benbouali of Chlef, Algeria
Brahim Zidane	Univ Hassiba benbouali of Chlef, Algeria
Tahar Abbes	Univ Hassiba benbouali of Chlef, Algeria

Registration Fees are 2500 DA, payable in advance of the conference, includes: Access to the

Registration fee

Conference sessions, Poster area and Workshops, all conference documents and certificate of attendance, lunch, dinner and mid-session refreshments as scheduled in the Conference program.

Key dates

Deadline for abstract submission, December 4, 2017

Notification of abstract acceptance, December 5, 2017

The official language of the Symposium SSE NAM'2 meeting is Arabic, English and French.
